

Who are we?

Women in Technology is a vibrant, diverse and passionate society dedicated to empowering and celebrating women in tech. Our members get ahead by

- 1 **Building** professional networks
- 2 **Sharpening** technical skills
- 3 **Connecting** with like-minded peers

What's on?

Mentoring Program

Get paired with an industry professional or senior student for weekly chats about your degree, career pathway and future in the tech industry.

Hackathon

Team up with friends for a week-long coding competition to develop creative software solutions for real-world challenges provided by our sponsors.

Follow our
socials for more

WiT's First Year Guide

Our First Semester Tips

BE PREPARED! 2

Do online coding courses before the semester starts. Check what new programming languages are taught in your upcoming units and get familiar with them. It makes a huge difference! I recommend browsing for courses on Udemy.

Arielle Vice President

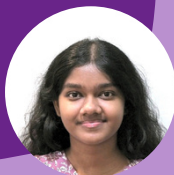

USYD has so many opportunities to upskill and network. Go to society events, industry nights and workshops early on to get a feel for your career and make connections. Don't be afraid to ask for opportunities, like getting involved in a lecturer's research if you are really interested. **Putting yourself out there opens doors!**

Rayna President

Seek out the resources available to you.

The university has so many resources for both academic and wellbeing support—whether it's peer assisted study services, mental health support, career advice, or even just help with study skills. They exist to help you, so don't hesitate to use them!!

Dyuti Treasurer

CHECKLIST

- ☐ **Plan your degree** by mapping out which units to take each semester.
Handbook: <https://www.sydney.edu.au/handbooks/engineering.html>
CUSP: <https://cusp.sydney.edu.au/>
- ☐ **Sign up to USU** to join university clubs and societies—including WiT!
USU: <https://usu.edu.au/join>
- ☐ **Download the Lost On Campus app** to easily navigate to your classrooms.
Lost On Campus: <https://studentvip.com.au/lost-on-campus>
- ☐ **Get your student card** to access library borrowing, printing and more.
Student cards: <https://www.sydney.edu.au/students/student-cards.html>
- ☐ **Review your units of study** for info about content, assessments, attendance, etc.
Unit outlines: <https://www.sydney.edu.au/units>

1 BE SOCIAL!

Make the most of your time in university! **Getting involved in societies early and familiarising myself with my cohort** helped me settle into the dynamic and fast-paced environment of engineering and technology. So don't hesitate to get close to your classmates and attend big events like o-week and society dinners!

Grace Secretary

Don't forget this is can be a spectacular year of memories that you'll look back on, **do things you normally wouldn't, explore things you normally wouldn't and talk to people you normally wouldn't.** The possibilities are endless!

Fizza Marketing Director

Say hi to people around you! Everyone in first year is in the same boat, and most people are looking to make friends. You never know, a simple conversation could help you find your new best friend.
